About **Bello Alimentos**

Since its foundation, in 2006, Bello Alimentos' efforts are concentrated on one primary objective: to offer the best chicken meat in the international food market. Ethics, respect for nature, and commitment to the consumer are the values with which the company obtained excellent results.

With industrial units in the cities of Itaquiraí and Aparecida do Taboado - all in the state of Mato Grosso do Sul, Brazil -, Bello Alimentos is increasingly conquering Brazilian and foreign markets.

The professionals involved in the process are specialists in their field and follow each step of production, to ensure the final quality of the products. The Federal Inspection Service, an organ of the Ministry of Agriculture, evaluates food of animal origin. This work is an essential part of Bello Alimentos' production line.

The 100% Halal slaughter complies with all laws and regulations of Islamic Religion for this stage of the process.

Bello Alimentos exports half of its production to more than 50 countries. Clients all over the world recognize the company's work on quality control and innovation, always seeking new ways and technologies to improve consumers' and partners' satisfaction.
